

Digital FM Trasmmitter /Auto Charger

For iPod with Dock Connector

Instructions

To transmit and charge the iPod in the car:

1. Plug the FM Trasmmitter/Auto Charger into the car’s DC power source (12v outlet or cigarette lighter). The display will automatically come on indicating that it is being powered.
 2. Connect the other end of the FM Trasmmitter/Charger cable to the dock connector port on the bottom of the iPod.
 3. Select any available FM frequency on your car stereo.
- * Choose a channel that has no signal or is currently not transmitting a radio station.
4. Use the Up/Down button on the FM Trasmmitter/Auto Charger to match this radio frequency on the FM Trasmmitter.
 5. To store the station into the FM Trasmmitter/Auto Charger’s memory push and hold one of the 3 preset buttons.
 6. Turn on the iPod and play your favorite tunes through the radio.
 7. The FM Trasmmitter will automatically turn off after 60 seconds of not receiving music from the iPod.

Federal Communications Commission Information

This Kensington Digital FM Trasmmitter/Auto Charger model no. 33185 complies with Part 15 of the FCC rules and regulations. Operation is subject to two conditions: (1) This device may not cause harmful interference, and, (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION:

Changes or modifications not expressly approved by Kensington may void the user’s authority to operate this equipment.

US patent 6671494 and other U.S. and foreign patents pending, owned by Aerielle and used under license.
