Use the same location.
Thanks
Dave

Mr. Meitzen,

I have a good label already with ID RL7-SKU102-001 -0A. However the location is the issue. The exhibit (zip) attached heredoesn't have any readable files. Did you mean to send me a new location? Or are you just saying to use the same exhibit from before. If you are intending the same location from before to be used, I need a note (can be email) but specifically saying use the location from 14460 but the old label will be replaced with the new one submitted. Sorry but the FCC needs to see that it is your intention to do this, not just our interpretation. Thanks.

Marianne

Same location, label attached.
Thanks
Dave

Perfect, thank you. Please confirm that location for this one is the same as 14640. I will send a note from you along with old location, to the FCC. Ideally, if you could send the location exhibit with the new label, that would be the best thing. Either way, I can do it. Just let me know. This is the only thing left. I will get you the grant today.

Hello Mr. Meitzen,

We're coming down to soon finishing, but I wanted to make sure that you were aware of the fact that I need you to send a revised confidentiality since we had to redo the ID (remember, one too many characters) showing the ID as

FCC ID: RL7-SKU102-001-0A. Any questions, let me know.

Marianne
