Re: FCC ID: RLP-PC-9NR3-Y1

This is to notify ATCB that the reason for the request for a change of ID (existing FCC ID: Q9Z-PC5NR3-J) to create FCC ID: RLP-PC-9NR3-Y1 is that the product originally developed by Hitachi Keiyo Systems and Engineering, Ltd is now going to be marketed by Hitachi, Ltd., Internet Systems Platform Division. Hitachi, Ltd prefers to market the product under their own FCC ID number.

Please don't hesitate to contact me if you have any questions regarding this request.

Best Regards

Bob Cole

President
