

# TUNE-FREE

## Audio FM Transmitter

**Play music from any portable audio device or laptop on any FM equipped stereo.**  
**Wirelessly transmits the audio using FM frequencies.**

- Plug Tune-Free transmitter into your music player.
  - Set Tune-Free and your stereo to the same FM frequency: (from 88.1MHz to 107.9 MHz, check the channel table for details)
  - Turn on the Tune-Free and the music player, the music will be transmitted from the player to the FM stereo wirelessly. Enjoy your music now!
- Note:** For best results, select a frequency that has the weakest or no signal from a radio station

Channel Selection Table			
1	2	3	Frequency
ON	ON	ON	106.7M
ON	ON	OFF	106.9M
ON	OFF	ON	88.1M / 107.1M
ON	OFF	OFF	88.3M / 107.3M
OFF	ON	ON	88.5M / 107.5M
OFF	ON	OFF	88.7M / 107.7M
OFF	OFF	ON	88.9M / 107.9M

### Specifications

- \* Modulation: FM
- \* Channel: 12 channels
- \* Frequency modulation: 88.1MHz ~ 88.9MHz, 106.7MHz ~ 107.9MHz
- \* Available distance: 3meters
- \* Power: 2 x AAA batteries
- \* Frequency response: 15HZ to 20KHZ
- \* Continuous using time: 15hours
- \* Standby time (using 1hour per day): 45days
- \* Transmit power: <0dBm

## **FCC STATEMENT:**

“Modifications not authorized by the manufacturer may void users authority to operate this device”

### **NOTE:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC ID: RLQAT100

MADE IN CHINA

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
