

Product specifications

Operating frequency range	ISM 2.402 to 2.480GHz
Support for Bluetooth Profiles	Headset & Handsfree and A2DP & AVRCP Profiles
Transmit power	Class 2
Scope of wireless connection	10m
Charger output specifications	DC 5V 100mA
Built in rechargeable lithium battery	Polymer lithium battery 85mAh
Charging socket	Micro USB
Standby current	$\leq 0.6\text{mA}$
Talking current	$\leq 20\text{mA}$
Shutdown current	$\leq 5\mu\text{A}$
Loudspeaker	$\Phi 8\text{mm}$
Microphone	-42dBm 4015
Normal charging time	$\leq 2.5\text{H}$
Maximum time of call	6H
The biggest music playback time	7 H
Maximum idle time	170 H
Outline dimensions	8*35*35mm
Weight	12 g

FCC ID Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
