RE: Goldline Controls Inc.

FCC ID: RNW-MD-FH-09-01

I have a few comments on this Application.

1 The system receivers shall have input bandwidths that match the hopping channel bandwidths of their corresponding transmitters and shall shift frequencies in synchronization with the transmitted signals see CFR Part 15.247(a)(1). Please confirm this is the case and submit in confirmation letter.

Response: Please refer to the attestation letter uploaded with this response, which also addresses the comments in #2.

2 Please review CFR 15.247(g)(h) and confirm that the unit complies with these part of the rules and include with confirmation letter.

Response: Please refer to the attestation letter uploaded with this response, which also addresses the comments in #1.

3 Please provide a pseudo random hopping frequency list showing hopping order of all 75 hopping frequencies.

Response: Please refer to the revised operational description exhibit uploaded with this response, for this proprietary information.

4 Industry Canada requires the manufacturer name, model number and the IC: number be on the labels according to RSS-GEN Section 5.2. Please revise the label to comply.

Response: Please review the revised label exhibit uploaded with this response.

Thank you,
