**Subject:** Additional Information needed for WOO -UP AN04T3586, FCC ID: RNZIDC101

Dear Will Yauo,

Please submit a revised Technical Description of this RFID device which includes the transmit frequency of the Transmitter, the response of the tag including the offset frequency (to ensure that it does not operate in a restricted band of operation). The operational description of the device originally submitted does not address any technical issues. This request is in accordance with FCC 2.1033(b)(4).

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Please respond directly to [charvey-tcb@ccsemc.com](mailto:charvey-tcb@ccsemc.com).

Best regards,

Chris Harvey
