	Downloading		

### 3. Getting Started Guide

Statement: The company has committed to quality, while software update. If the final version of products has any difference from description of the user guide, please subject to the final product. Thank you!

#### 3.1 Battery Charging

MID has an internal charging battery. We suggest to charge up the battery power is low.

##### *Power adapter*

One end of the power adapter connecting the socket, and the other end of the power adapter connecting the socket of the device, then the device can be charged.

##### *Way to charging battery*

1. Plug in the power adapter, the battery charging indicator turn red, indicating charging. Plug when the battery is fully charged, the indicators shows green. After unplug the power adapter, the indicator always shows green.
2. During battery charging, user can operate MID.

Note: The charging time will be longer when operating and charging at same time.

#### 3.2 Getting Started

##### *Turn the MID on*

Press and hold the **Power Key** until the LCD screen turns on. Wait until the Home screen appears. The tablet is now ready for use.

### *Turn the MID off*

1. Press and hold the **Power Key** until the MID options menu appears.
2. Press **ok** to turn off the MID.

### **3.3 Turn The Screen On And Off**

When the MID is on, you can turn off the screen to conserve battery power. Simply press the **Power Key** once to turn the screen off. Press the **Power Key** again to turn the screen back on.

**Note:** To conserve battery power, the screen can be set to turn off automatically when the MID is not in use(between 15 seconds

## 3.4 Unlocking The Screen

When the screen turns off you will have to unlock the screen, touch and hold **lock icon** and slide towards **unlock icon**.

## 3.5 Use of touch screen

### *Setting mode in MID*

There are various ways to skim the main screen, menu and application program, etc. on your MID.

### *Click to select*

When you want to use screen keyboard entry, and you want to select items on the homepage interface such as application program, you only use your finger to click.

### *Press on*

If you want to unlock the available option of a certain item (such as textbox or interlinkage in the webpage), or move shortcut on the homepage

interface and menu of main program, only press the item.

### *Slide quickly or slide*

Quick sliding or sliding means doing rapid vertical or horizontal drag movement by using finger on the picture.

### *Drag*

Before you starting to drag, you must press it with your finger and impose a certain pressure, and don't loosen the finger before dragging to the wanted position.

### *Rotate*

Aiming at most of pictures, only turn the MID in side direction, the screen direction can be shifted from cross direction to vertical direction. For example, when you input characters, watch cinema, etc.

## 3.6 Homepage Interface

All application programs on the machine will be displayed on the main

menu screen. You may use application program, shortcut and user-defined mode to set wallpaper of your homepage interface.

### *Outstretched homepage interface*

Homepage interface may extend beyond the width of screen, so as to provide more space, so that you can place the newly increased shortcut, widget, etc. Press blank of homepage interface, then slide around quickly in vertical direction by finger to jump to left side or right side outside the screen. There are more than 2 stretched pictures on the homepage interface.

### *Change desktop wallpaper*

1. Long press the screen.
2. When the menu popping up, choose source of homepage interface wallpaper you want to change.

3. After clicking source of wallpaper, click picture you want, and then select “setting wallpaper”.

#### *Add widgets*

1. Please click application program menu.
2. After entering application program menu, click “WIDGETS” button on the top left of interface.
3. After pressing the desktop widgets you want, the system will return back main interface, put the selected widget to the wanted place, then loose .

Widgets

## 3.7 Access to application program

#### *How to visit application program of MID:*

1. In the file browser, press and select the file you want to operate.
2. Pop up operating menus, including **Cut**, **Copy**, **Delete**, **Rename**, **Move to**, **Copy to**, **Play music**, **Select all**, **Set home directory** and **Attributes**, etc.
3. Click **Cut** or **Copy** file or folder.
4. Click into the folder you want to paste, and pop up menu by pressing the Menu key.
5. Click **Operate** and then click **Paste**.

### *Delete files*

1. In the file browser, press the file you want to delete.
2. Click **Delete**.
3. Click **OK** to delete file.

### *Folder setup*

1. In the file browser, pop up menu by pressing the Menu key.
2. Click **Create**.
3. Click **Folder**.
4. Click pop-up window and input the name of the new folder in the text box.
5. Click **OK** to create the folder.

### *Quick search*

1. In the toolbar of the file browser
2. Click **Search icon**.

3. Pop up the search panel and enter the keywords you need to find.
4. Click **OK** and the search progress bar will appear in the notification bar.
5. When the search is completed, pop up the dialog box to confirm whether to show the results.
6. Click **OK** to show the search results.

### *Create sharing*

1. Load ES file browser.
1. Click '**Local**' at the upper left corner and select '**Share**' in the pop-up window.
2. Click the menu bar '**Create**', and select '**Search**' in the pop-up window .
3. The system will automatically search all the computers within the LAN, and each drive of your computer can be seen by clicking OK.
4. You can **Copy, Delete, Rename** here.

# 9 Basic Settings

## 9.1 Sound and Display

### *Volume setting*

1. Click the application icon to enter the settings application on the Homepage.
2. Click **Sound**.
3. Click **Volume** to control the volume of the ringtones, media, alarm clock and notification.
4. Pop up volume setup panel, and control it by dragging the progress bar to left or to right.

### *Screen key tone and screen lock alert tone*

You can set the MID to emit sound when you use the soft keyboard or touch screen as well as lock the screen.

1. Click the application icon to enter the settings application on the Homepage.
2. Click **Sound**.
3. Click the **Screen key tone and screen lock alert tone**.

### *Display settings*

#### ● **Adjust screen brightness**

1. Click the application icon to enter the settings application on the Homepage.
2. Click **Display**.
3. Click **Brightness**.
4. Pop up the brightness setup panel, and drag the brightness bar to left or to right to adjust the brightness.
5. Click **OK**.

#### ● **Adjust screen standby time**

1. Click the application icon to enter the settings application on the Homepage.
2. Click **Display**.
3. Scroll down the screen and then click **Sleep**.

4. Pop up screen standby time settings and choose the standby time you want.

## 9.2 Security and Location

### *Set unlock pattern*

You can set your own unlock pattern (equivalent to the password) to protect the privacy of your MID.

1. Click the application icon to enter the settings application on the Homepage.
2. Click **Security**.
3. Click **Set screen lock**.
4. Click **Pattern**.
5. Pop up unlock pattern panel with 9 contacts, at least four of which are connected vertically, horizontally or diagonally. Put fingers away from the screen upon completion and the system will record the pattern you set.
6. Click **Continue**.
7. Draw the screen unlock pattern again when the prompt appears and click **OK**.

**Tips:** If you do not want the unlock graphics display on the screen while unlocking, please clear the check box of Use visible pattern.

### *Other settings*

In the security settings, functions such as encryption setup, equipment management and credential storage can be added to the tablet PC.

## **9.3 Storage**

### *View storage settings*

1. Click the application icon to enter the settings application on the Homepage.
2. Click **Storage**.
3. View storage space of SD card.
4. View storage space of NAND FLASH.
5. View Scsi setup, which is the storage space of U disk.

### *Safe uninstall of SD card*

Safe removal of the SD card can effectively protect and prolong the service life of the SD card.

1. Click the application icon to enter the settings application on the Homepage.
2. Click **Storage**.
3. Click **Uninstall SD card**.
4. The system prompts that the SD card is safely removed.

**Tips:** the uninstall method for Scsi is as described above.

## **9.4 Date and Time**

### *Adjust the date, time and time zone*

1. Click the application icon to enter the settings application on the Homepage.
2. Scroll down the screen and then click the **Date and time settings**.
3. Click **Select time zone** to select the one you want. Scroll down the list to see more time zones.
4. Click **Set date**, then click the up button or the down button to adjust the date, month and year, and click **Settings** when finish.
5. Click **Set time**, then click the up button or the down button to adjust hours and minutes, click AM or PM to change between morning and

afternoon. Click **Settings** to complete.

6. Select 24-hour check box to switch between 12-hour and 24-hour. Selected time format will be applied to the alarm clock.
7. Click **Select date format** and then select the date format to be displayed on the MID.
8. You can choose **Automatically determine date and time**, which automatically uses the time from the network, so effective network is required.

## 9.5 Language and Input Method

### *Select language for the device*

1. Press the Menu key to pop up Settings menu on the Homepage.
2. Click **Settings**.
3. Click **Language and Input Method**
4. Click **Select language areas** and choose the language you need.

### *Keyboard and input method*

The default input keyboard is the Android keyboard, and you can select your favorite keyboard and input method by installing third-party software.

## 9.6 About Tablet PC

### *View MID status*

1. Click the application icon to enter the settings application on the Homepage.
2. Click **About Tablet PC**.
3. Click **Status Message** to view the **Battery status**, **Network status**, **Bluetooth address**, **Serial number** and **Running time**, etc.

### *System Update*

1. Click the application icon to enter the settings application on the Homepage.
2. Click **About Tablet PC**.
3. Click **System Update**.

4. If the window shows this is the latest version, there is no need to update.
5. If the window prompts to download the new version, click **Download**. (Ensure the device is equipped with the TF card before download, the system automatically downloads the update package into TF)

*View system version*

1. Click the application icon to enter the settings application on the Homepage.
2. Click **About Device**.
3. View **MID model**, **Android version**, **Firmware version** and **Build-in version**, etc.

# 10 Installation and Management of Program

## 10.1 Installation

### *Install third-party applications*

You can get third-party applications fit for the Android system from the Internet and for use on the MID. Copy the application to the SD card and insert into the MID.

#### **Method 1:**

1. Click **File Manager** to find the applications need to install in the SD card.
2. Click the applications that you want to install.
3. Pop up installation option and click **Install**.
4. Operate after completion in accordance with the installation guide.

#### **Method 2:**

You can download and install your favorite third-party software according to the Method 1, and after that, you can install the software you want through this software.

**Note:** search files with the suffix of .apk for the third-party programs from the Internet

## 10.2 Management and Uninstall

### *Management applications*

You can enter the applications and select one to Forcibly stop, Clear data, Uninstall, and Remove storage location.

### *Uninstall applications*

1. Click the application icon to enter the settings application on the Homepage.

2. Click **Applications**.
3. Click **Management applications**, and list all the applications installed in the system.
4. Click **Uninstall**.
5. Click **OK** to complete uninstall.

### **10.3 Update Approach**

Update Android system applications

- Download the latest application from our designated websites.
- Download through the relevant forums about Android system software from the Internet.
- Download through the software shops installed in the MID.

# 11 System Upgrade

## 11.1 System Upgrade Preparation

### *Download upgrade program*

You can download the software upgrade package from websites, which is used to upgrade the system version of the MID.

### *System Upgrade Preparation:*

1. Download the system upgrade package from relevant websites to your computer.
2. Prepare the system upgrade tool: a TF card with storage capacity  $\geq 512\text{MB}$ .

## 11.2 Restore Factory Settings

When significant error occurs or the unlock password is forgotten, factory settings can be restored by resetting. The restore of the factory settings will lead to the lost of downloaded applications and user setups, so do remember to back up your data.

1. Press the Menu key to pop up Settings menu on Homepage.
2. Click **Settings**.
3. Click **Backup and Reset**.
4. Click **Restore Factory Settings**.
5. Click **Restore Tablet PC**.
6. Wait for system rebooting.

# 12 Troubleshooting

## 1. slow initial boot for MID

After system upgrade of MID, initial boot needs installation of the pre-installed software applications, and for about 2–3 minutes, it runs faster.

## 2. MID can not be connected to WIFI

- Ensure that the wireless router providing the network services works properly.
- Ensure the MID and the wireless router are kept with certain distance, and between which no wall or other obstacles exist.
- Ensure the user name and the password are correct

## 3. MID feels hot

When multiple applications are running at the same time, or the screen is adjusted to the brightest, or it is recharging, this situation is normal.

## 4. System is disordered and does not work properly

Installation of some third-party applications may lead to system failure, and you can press the reset button (next to the power port) to reset the system.

## 5. Unable to create e-mail or regist applications

- Ensure your network is properly connected to the Internet.
- Ensure the e-mail is set up correctly.
- Ensure your system time and the local time are consistent.

## Appendix 1

### Specification Product Parameter

Type	Details	Descriptions
Basical parameter	MID model	D5H-98V
	CPU type	Amlogic Cortex-A9 AML8726-M6
	CPU speed	1.5GHz
	DDR	1GB
	NAND FLASH	8GB (8GB/16GB/32GB optional)
	Operating system version	Andriod 4.0.3
	Network connections	WIFI802.11b/g/n MINI USB switch to Ethernet Network
	USB interface	MINI USB*1 HOST
	HDMI interface	HDMI 1.4a
	battery	Lithium-ion polymer battery, 3.7V/3200mAH
Product appearance	Power adapter	Input: AC 100V-240V; output: DC 5V, 2.5A
	External memory card	Support SDHC/SDXC
	Product form	Straight plate
	LCD	10.0inch (16:9),1024*600 HD IPS
Application	Dimensions	25.1*16.4*10.8mm
	Weight	370g
	Vedio	Support MEPG,H.263/H.264,RMVB,MVC,etc. (UP TO 1080P)
	Audio	Support MP3,WMA,WAV,OGG,APE,DTS,etc. (need license)
	Games	Support to the third party programs
	Input method	Andriod keyboard
photos		
		Support browsing BMP, JPG, GIF, PNG,etc.
Office software		Support reading and editing office files;Support browsing PDF

## **FCC Warning**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
