

December 20, 2021

Regarding ROR0011 Part 96 application:

- a) These CBSDs are professionally installed.
- b) In the 3550-3650 MHz band, Category B CBSDs must be authorized consistent with information received from an ESC, as described in §96.15
- c) These category B CBSDs are limited to outdoor operations.
- d) When registering with an SAS, Category B CBSDs must transmit all information required under §96.39 plus the following additional information: antenna gain, beamwidth, azimuth, downtilt angle, and antenna height above ground level. This is demonstrated in the SAS test report provided with this application

Sincerely,

A handwritten signature in black ink, appearing to read "Jim Dickerman". The signature is fluid and cursive, with a large initial "J" and "D".

Jim Dickerman
