

Attention:  
Application Examiner  
Reviewing Engineer

Re: Request for confidentiality

Applicant: HTC Sweden AB

FCC ID: RP9 RCS-HTC-US

To whom it may concern,

Request is hereby submitted by HTC Sweden AB to withhold from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) of the FCC Rules.

In particular, the following sections of the application are to be kept confidential:

- Detailed Operational/Functional Description (RCS-HTC\_Technical.doc)

Rationale for request for confidentiality:

HTC Sweden AB has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us. Moreso, restricting knowledge of the communication protocol reduces the risk of intentional tampering with the product and/or use of the product in applications not sanctioned by HTC Sweden AB.

If you have questions or need further information, please contact the undersigned.

Sincerely,  
Karl Thysell  
Development Manager  
HTC Sweden AB
