Function Description of Keys and Interfaces

1

Volume+/Volume-: Short press the button to turn up/down the volume.

Power Key：Long press it for 5 seconds to startup/shutdown; short press to lock the screen, and wake it up by short press again.

Charge/USB interface: Used for connecting the computer, data transmission devices and external devices, such as mouse, USB flash disks, and OTG wires. At the same time, this interface is also the charger interface.

TF Card Slot: Externally connect the TF card.

Basic Operations

Startup/Shutdown

In status of power-off, after long press the power key for 5 seconds, it will enter into the main screen after displaying the startup picture.

In status of power-on, after long press the power key for 5 seconds, it will pop up the dialogue box, and select "OK" key to shutdown, and the "Cancel" key to keep the power-on state.

PC Connection

In status of power-on, after connecting with the computer using USB, select the connection method of "Media Transfer Protocol (MTP)" to achieve the removable disk function, which can upload and download data such as documents, etc.

Notes: MTP is a part of Windows Media framework, therefore it closely connect with Windows Media Play. Supporting technology has been embedded in Windows Vista, Windows 7 and the above versions, while Windows Media Play 10 or the above version need to be installed in Windows XP if need to support MTP. There are MTP-support software packages in Mac and Linux.

Charging

Please timely charge the MID when prompting the low-battery on the screen. Please use the charger provided by the manufacturer to charge. Charging can be

2

conducted in status of power-off, and the whole charging process needs about 3.5 hours. (When in full battery, the charging indicator will light off.)

Reset Function

If the MID crashes or shows other abnormal problems in the process of using because of improper operation, please use the pen nib or something like to click the reset key in the reset aperture to reset the MID.
Restore Factory Data Reset

Settings----Factory Data Rest----Reset the MID----Erase All Data on MID

Main Screen Introduction

Long pressing the power key for 5 seconds, MID will enter the unlocking interface after displaying the startup picture.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
