Subject: Re: RQKMINISTATION12 comments

Importance: High

Dear Dennis,

I had uploaded documents to ATCB website.

Regarding to your comments, the following is our reply after confirming with our client.

1. We had uploaded 4 installing photos for minestation12. In these photos, you can see it is used for forklift. It is strictly for the industrial application.
2. We had uploaded sample of the two conditions label.
3. We will follow it for next project.
4. We had uploaded revised test report.

Please review it then reply to me ASAP if having any opinion of it. Thanks.

Best regards,

Joanna
