

# Limited Module Approved Request Letter

Subject: Limited Module Approval

Date: 2013-1-4

FCC ID: RR3-LSN8001

Dear Reviewer,

We, Most Technology Service Co., Limited, are authorized by Li Sen g Technology Limited to have their state-of-the-art Bluetooth module approved under limited module approval authorization. The application of this module is specified to mobile host equipment. The requirement regulated in public Notice DA00-1407 have been fulfilled and clearly explained below:

1. The requirement of RF shielding: The EUT has no own shielding.
2. The requirement of buffered inputs: Buffered data inputs stage has been integrated in chip nRF8001.
3. The requirement of power supply regulation: The part number of the power regulator is P2
4. The requirement of section 15.203 and 15.204(C): The requirements of antenna connector and spurious emission have been fulfilled. No dedicated antenna indicated.
5. The EUT was not tested in stand-alone configurations. It was tested on a evaluation or testing board.
6. The requirement of labelling: The instruction on the labelling rule of the end product has been stated in the users manual of this module. Please also see the exhibition label sample.
7. The requirement of compliance on specific rule or operating requirements: The required FCC rule has been fulfilled and all the instructions for maintaining compliance has been clearly stated in the users manual.
8. The modular transmitter comply with any applicable RF exposure requirements: The EUT is exempted from RF exposure requirements due to low output power.

Please don not hesitate to contact me for any questions of this request letter, Thank you.
