

# **FM Clamping Handsfree**

## **Introduction and Application**

### **Electrical Index**

1. Working frequency point: 88.7 MHz
2. Carrier wave module mode: FM (Frequency modulation)
3. Effective communication distance : 5m;
4. Working hours: 2 hours;
5. Charging time: 2 hours;
6. Service life of built-in rechargeable battery: 2000 times of circles
7. Applicability: Apply to wireless communication with any mobile in combination with automobile or other FM radios.
