RE: FCC ID: RRGLCT901\_ATCB001133

Attention: Mike Royer

I have a few comments on this Application.

1. Please note that the limits for radiated emission of 15.231 devices above 470 MHz is 1250uV/m (61.9dBuV/m) not 55.6dBuV/m. Please use the correct limits for radiated spurious emissions.
2. Please provide evidence that the device meets the 5 sec cut off rule of 15.342a1 as well as the other rules of 15.231a.

Dennis Ward

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
