Dear Tim,

Thank you for your reply and please find the attachment for revised SAR Report.

If it still has any questions, please let me know.

Dear Vicki,

In my review, I thought the SAR evaluation was acceptable, but I was informed by certification that we need additional evaluation. In all cases with USB dongles and notebooks, both horizontal and vertical USB slots must be investigated. This is to demonstrate testing in all typical configurations.

So for this application, additional SAR data is required with one notebook with vertical USB slots. Only

the lap held position needs to be investigated. The three notebooks tested all had only horizontal slots.

The SAR test lab should be aware of this requirement.

This applies to both this application and AN07T7193. I will send a copy of this information for that application also.

Best regards,

Tim Dwyer

Dear Vicki,

This application review is complete. Please reply to the following time.

Q1: The FCCID label shows FCCID: RRK-C300RC. The application is for RRK-C300RU. Also no label location information was provided. Please send a revised label and location information.

Best regards,

Tim Dwyer

Dear Vicki,

Thank you for your reply. I hope to complete this application today.

Please remember that we also need a revised SAR report for Alpha application AN07T7193.

Best regards,

Tim Dwyer
