

Description of Permissive Change

This is prepared for FCC class II permissive change. The differences compared with original report are listing as below:

1. The device previously granted under rule parts of 15.247 and is now applying for approval under 15.407(b)(4)(ii) for devices with no changes to hardware or output power.
2. The device will close DFS band (5260~5320MHz, 5500~5700MHz) through the applicant's proprietary firmware and is not user changeable.

Please refer to test repots for more details about the test items.
