

MSCL M2M-4 V1.0

Uplink center Frequency(MHz)	781	836.5	1732.5	1882.5
MSCL(dB)	3	3	4	4

Explanation:

Because the M2M device is directly connected to the router through the power box (with 7ft cable). Therefore, the MSCL of the M2M device is equal to the loss of the power box.
