

Compliance Testing, LLC

FCC ID: RSNTRIFLEX-A
PBA#: 750193
CRN: 168739
CT Project: TCB-p1370008

From: FCC
Date: 3/11/14

As a Consumer Signal Booster, this device may only be marketed and sold to members of the general public for their personal use within limited areas such as home, car, boat or RV. The user manual of this device describes use within an "office" environment thus categorizing it as an Industrial Signal Booster.

For continued processing please proceed as follows:

Firstly, modify current application to remove all reference to "office" or industrial use. Upload updated exhibits and reply through KDB inquiry system.

Subsequently, choose one of the following options:

- 1) Proceed with consumer use only filing.
- 2) For authorization under industrial use either file under a new FCC ID or file a C2PC. Under this option we will allow grant of consumer application immediately.
- 3) Have TCB file a composite application for an industrial booster and we will approve the grant of the consumer booster as soon as that is on file. TCB can then complete and grant the industrial booster application.

[Cellphone-Mate – Please refer to updated manual exhibit. This is a consumer booster only.](#)
