**Overview**

The model SS-01, FCC ID: RU7-EMME-SS-01, is a wireless temperature sensor, operating at 418 MHz under FCC 47 Cfr 15.231. The device transmits temperature data and the state of a magnetic reed switch to a control unit. The device is used to control the temperature of an individual room.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
