

Mar 14, 2007

To whom it may concern,

Label Location Justification

FCC ID: RWL-B096

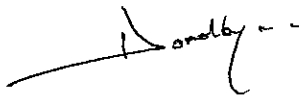

Request is hereby submitted by **Group Sense Mobile-Tech Limited** to request an alternative method of positively identifying the equipment, pursuant to 47 CFR §2.925 (f) of the FCC Rules.

The FCC Identifier is not desirable to be shown on the outside of the equipment enclosure because the available label area on the phone is limited. It is relatively small and has many contoured surfaces, keypad, LCD display, charge contacts. The FCC Identifier will be permanently affixed to the battery compartment instead of the enclosure. As the battery is design for easy removal, the Identifier can be readily visible by purchaser as well as be easy visible at all times during battery installation that can fulfill 47 CFR §2.925(d) of the FCC Rules.

The user manual has already included the FCC statements, pursuant to 47 CFR §15.19(a)(3), 15.21 and 15.105(b).

If you have questions or need further information, please contact the undersigned.

Yours Sincerely,

Donald Yau
Section Manager
R&D Electronic Section
