	Fully charged
	Charging

CONNECTING TO YOUR DEVICES

A. Via Type-C wireless dongle (2.4 GHz)

1. Plug the Type-C wireless dongle into your device.

2. Press and hold the Power button until the status indicator briefly lights up.

3. Wait until the status indicator briefly becomes static green indicating that the headset is connected to the Type-C wireless dongle.

Indicator	Battery level
●	Connected

4. On your device (if applicable), set the WIRELESS HEADSET, USB WIRELESS TRANSCEIVER as the default **Input** and **Output Device**.

On PC / Laptop

- a. Right-click on the sound icon on the system tray and then select **Open Sound settings**.
- b. On the Sound window, set WIRELESS HEADSET, USB WIRELESS TRANSCEIVER 2.4 as the default **Output** and **Input** device.

On PlayStation 5, go to Settings > Sound

- On **Microphone**, set the **Input Device** to WIRELESS HEADSET, USB WIRELESS TRANSCEIVER 2.4.
- On **Audio Output**, set the **Output Device** to WIRELESS HEADSET, USB WIRELESS TRANSCEIVER 2.4.

On PlayStation 4, go to Settings > Devices > Audio Devices

- Set the **Input Device** and **Output Device** to WIRELESS HEADSET, USB WIRELESS TRANSCEIVER 2.4.

B. Via Bluetooth

While powered on, press the Razer SmartSwitch button for 5 seconds to activate Bluetooth pairing mode. Follow your device's instructions and select "WIRELESS HEADSET, USB WIRELESS TRANSCEIVER (**BT**)" from the list of found devices. The status indicator will briefly change to static blue to indicate that the headset is now paired with your device.

RAZER SMARTSWITCH

With the WIRELESS HEADSET, USB WIRELESS TRANSCEIVER connected to your PC or console (via Type-C wireless dongle) and a mobile device (via Bluetooth), you'll be able to manage calls from your mobile device even while gaming. The status indicator will briefly show static white to indicate that the headset is connected to both audio sources.

PERSONALIZE YOUR EXPERIENCE

Razer Audio app (Mobile)

Making advanced customization just got a whole lot easier for the WIRELESS HEADSET, USB WIRELESS TRANSCIEVER. With the Razer Audio App, you'll be able to customize its EQ settings and auto shutoff feature, enable or disable gaming mode, adjust the Active Noise Cancellation (ANC) level, and much more — anytime, anywhere.

Razer Audio

OR

RZR.TO/AUDAPP
(For China only)

When using the app, make sure that the headset is only connected to your mobile device via Bluetooth. A solid blue status indicator indicates this connection.

Razer Synapse (PC)

Use the Razer Synapse* app to select from any of the headset's EQ presets or customize your own, enhance sound and mic settings, enable and adjust real-time mic monitoring, and other headset features for a phenomenal audio experience that's genuinely yours.

**Install Razer Synapse when prompted or download the installer from [razer.com/synapse](https://www.razer.com/synapse).*

Activate THX Spatial Audio*

Unleash the full potential of your WIRELESS HEADSET, USB WIRELESS TRANSCIEVER by enabling 360° positional audio for a natural and lifelike experience through Razer Synapse.

**Only available on Windows 10 64-bit and above.*

USING YOUR HEADSET

BATTERY LEVEL

When unplugged and powered on, the status indicator will show the connection and battery status. While in use, you'll hear a voice prompt when the headset needs to be recharged; during such time, the indicator will continue showing the battery level until you charge the headset.

Indicator	Prompt	Battery level
	Voice	Low

POWER BUTTON

Power ON / OFF

Power on the headset by holding the Power button until the status indicator is on, and holding the Power button again to turn off. An audio prompt will help notify you when the headset is powered on or off.

Other functions

Other power button functions are available when the headset is powered on with Bluetooth as the audio source. These functions operate based on your device's current activity and may not apply to certain devices.

Single press	Play/pause*
	Accept incoming call or end current call
	Put call on-hold and accept incoming call
	End call and swap to on-hold call
	Cancel outgoing call
Double press	Reject incoming call
	Swap calls
	Skip track
Triple press	Previous track
While powered off, press and hold for 5 seconds	Activate Bluetooth pairing mode

**You can also use this function when using the Type-C wireless dongle as an audio source.*

RAZER SMARTSWITCH BUTTON

Switching audio source

When powered on and connected to any audio source, double press the Razer SmartSwitch button to switch between Type-C wireless dongle and Bluetooth audio source or vice versa.

- i** Using Bluetooth as the audio source will reconnect the headset to the last known device. Pairing mode will be activated if no device is found.

Enabling ANC / Quick Attention Mode

Active Noise Cancellation helps eliminate background noise, while Quick Attention Mode allows you to hear your surroundings without removing the headset. While connected, press the Razer SmartSwitch button to cycle through ANC On, Quick Attention Mode, and ANC Off.

i An audio prompt will notify you when ANC and Quick Attention Mode have been enabled. Complete customization of these functions can be made using the Razer Audio app.

Enabling / Disabling Gaming Mode

While connected via Bluetooth, triple press the Razer SmartSwitch button, then hold the last press for 2 seconds to activate Gaming Mode. Once enabled, the headset will function at a lower latency; giving you real-time audio feedback while gaming. Repeat to disable gaming mode

i This feature is only available on Bluetooth connection. For best performance, keeping the headset within a very close distance of the audio source is recommended.

VOLUME WHEEL

Rotate the Volume wheel to increase or decrease the volume.

MUTING / UNMUTING THE MICROPHONE

Press the mic mute button to mute or unmute the microphone.

EXTENDING YOUR HEADSET'S LIFESPAN

We recommend stretching the headset gently apart before placing them over your head to minimize headband stress. However, please avoid overstretching the headset beyond its technical limits.

SAFETY AND MAINTENANCE

SAFETY GUIDELINES

In order to achieve maximum safety while using your WIRELESS HEADSET, USB WIRELESS TRANSCEIVER, we suggest that you adopt the following guidelines:

Should you have trouble operating the device properly and troubleshooting does not work, unplug the device and contact the Razer hotline or go to support.razer.com for assistance.

Do not take apart the device (doing so will void your warranty) and do not attempt to operate it under abnormal current loads.

Keep the device away from liquid, humidity or moisture. Operate the device only within the specific temperature range of 0°C (32°F) to 40°C (104°F). Should the temperature exceed this range, unplug and/or switch off the device in order to let the temperature stabilize to an optimal level.

The device isolates external ambient sounds even at low volumes, resulting in lowered awareness of your external surroundings. Please remove the device when engaging in any activities that requires active awareness of your surroundings.

Listening to excessively loud volumes over extended periods of time can damage your hearing. Furthermore, legislation of certain countries permits a maximum sound level of 86db to affect your hearing for 8 hours a day. We therefore recommend that you reduce the volume to a comfortable level when listening for prolonged periods of time. Please, take good care of your hearing.

MAINTENANCE AND USE

The Razer Barracuda requires minimum maintenance to keep it in optimum condition. Once a month we recommend you clean the device using a soft cloth or cotton swab to prevent dirt buildup. Do not use soap or harsh cleaning agents.

BATTERY WARNING

The WIRELESS HEADSET, USB WIRELESS TRANSCEIVER contains a Li-ion rechargeable battery. In general, the life expectancy of such batteries is dependent upon usage. If you suspect that the Li-ion rechargeable battery inside the WIRELESS HEADSET, USB WIRELESS TRANSCEIVER may be drained (has a low charge), try charging it.

Caution: Do not open, mutilate, or expose to conducting materials (metal), moisture, liquid, fire, or heat. Doing so may cause batteries to leak or explode, resulting in personal injury. Battery life varies with usage.

Razer reserves the right to amend any term at any time without notice.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provide with antenna installation instructions and consider removing the no-collocation statement.

Canada Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 2.5 de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.

The equipment complies with IC RF exposure limits set forth for an uncontrolled environment and must not be co-located or operating in conjunction with any other antenna or transmitter.

L'équipement est conforme aux limites d'exposition RF d'IC établies pour un environnement non contrôlé et ne doit pas être situé ou fonctionner en conjonction avec une autre antenne ou un autre émetteur. Les utilisateurs peuvent obtenir des informations canadiennes sur l'exposition aux RF et la conformité.
