- I. True 18K DPI 5G optical sensor
- J. Slider switch
 - Bluetooth mode
 - Power off mode
 - Razer™ HyperSpeed Wireless (2.4 Ghz) mode

- 1 x AA battery
- Important Product Information Guide

! *The DPI stages are as follows: 400, 800, 1600 (default), 3200 and 6400. The DPI stages can be customized using Razer Synapse.*

WHAT'S NEEDED

PRODUCT REQUIREMENTS

- Windows® OS
- USB-A port
- 1x 1.5V AA battery*
- Bluetooth 5.1 connectivity

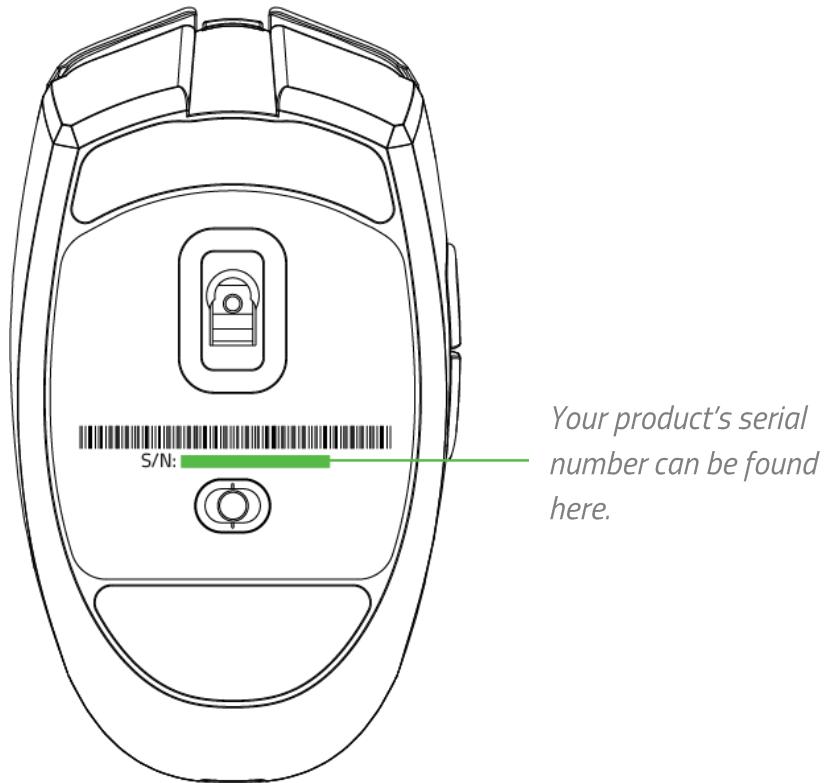

RAZER SYNAPSE REQUIREMENTS

- Windows® 7 64-bit (or higher)
- Internet connection for software installation

**Also compatible with a AAA battery (not included).*

LET'S GET YOU COVERED

You've got a great device in your hands, complete with a 2-year limited warranty coverage. Now maximize its potential and score exclusive Razer benefits by registering at razerid.razer.com

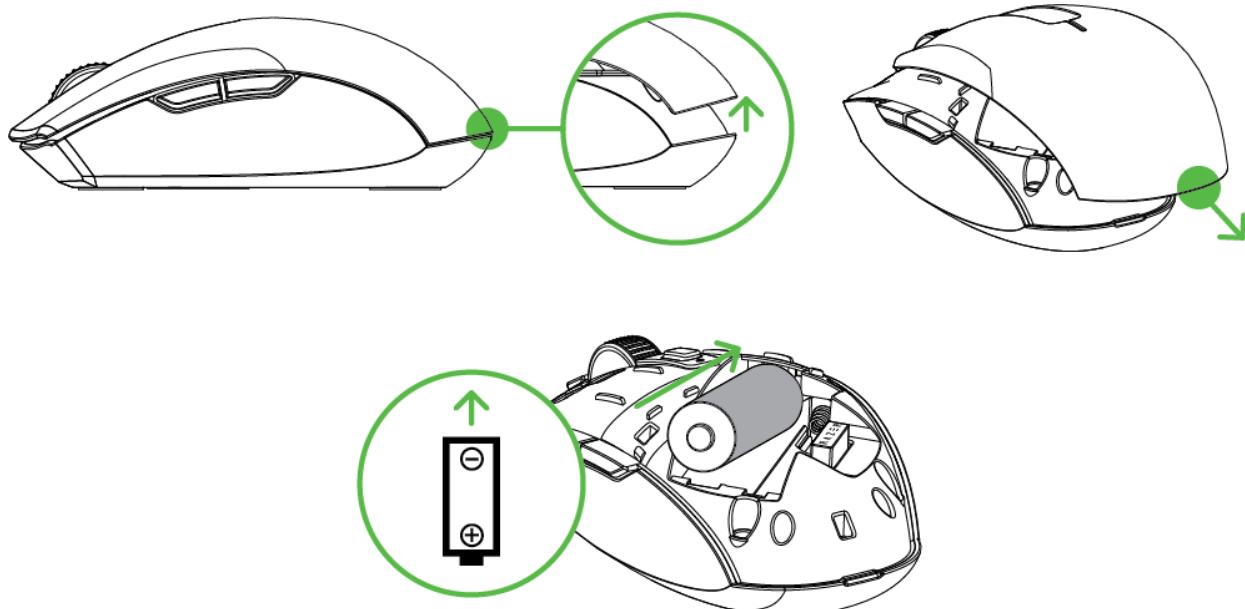

Got a question? Ask the Razer Support Team at support.razer.com

GETTING STARTED

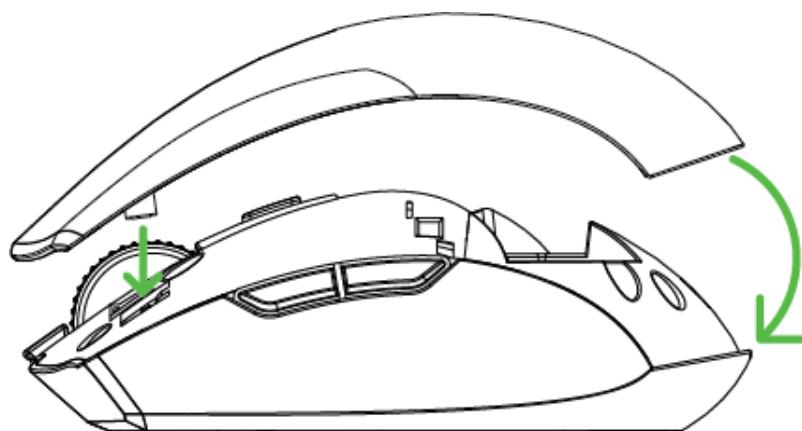

INSERTING THE BATTERY

1. Remove the top cover of the mouse and insert the AA battery as indicated in the battery compartment.

Caution: The included AA battery is non-rechargeable. You may also use a AAA battery (not included) if preferred. Dispose batteries in accordance with your local environmental laws. For your safety, use only alkaline batteries and do not mix old batteries with new ones.

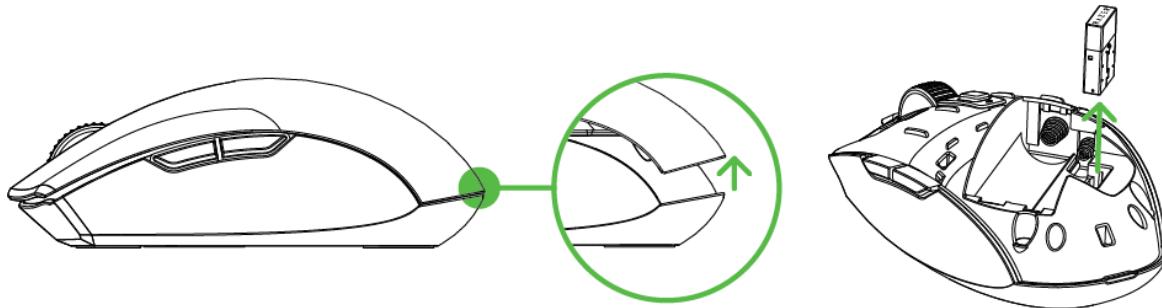

2. Reattach the top cover onto the mouse and make sure that it is tightly secured.

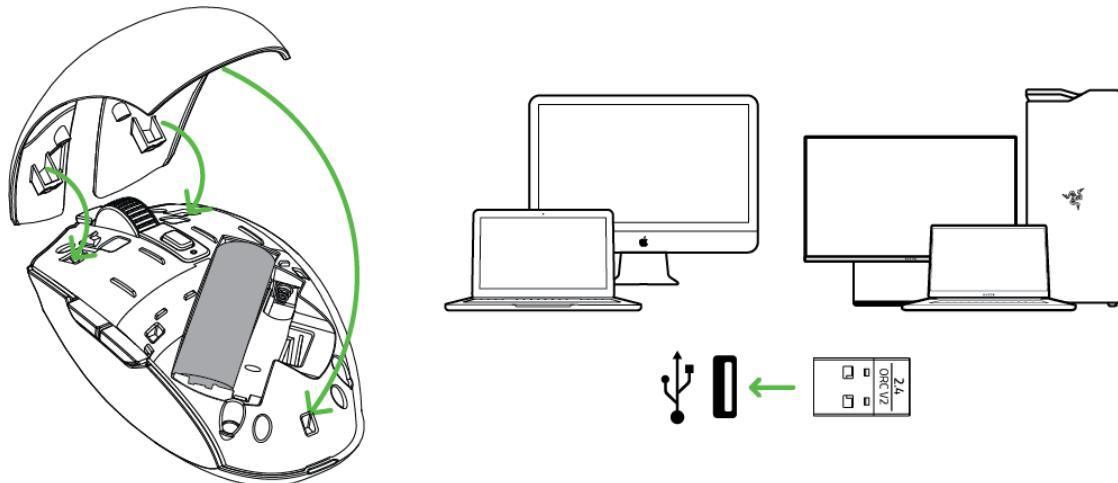

CONNECTING YOUR MOUSE

A. VIA RAZER™ HYPERSPEED WIRELESS (2.4 GHZ) MODE

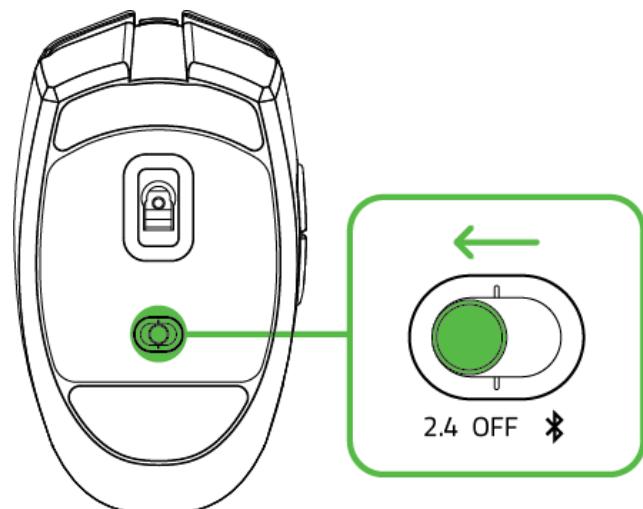

1. Remove the top cover of the mouse and take out the wireless USB dongle.

2. Close the top cover and insert the wireless USB dongle into the USB port of your PC.

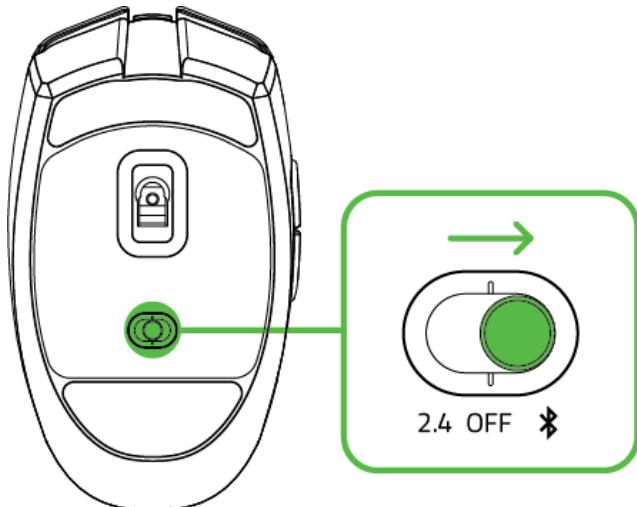

3. Push the slider switch to Razer™ HyperSpeed Wireless (2.4 GHz) mode. When connected, the status indicator will briefly turn static green.

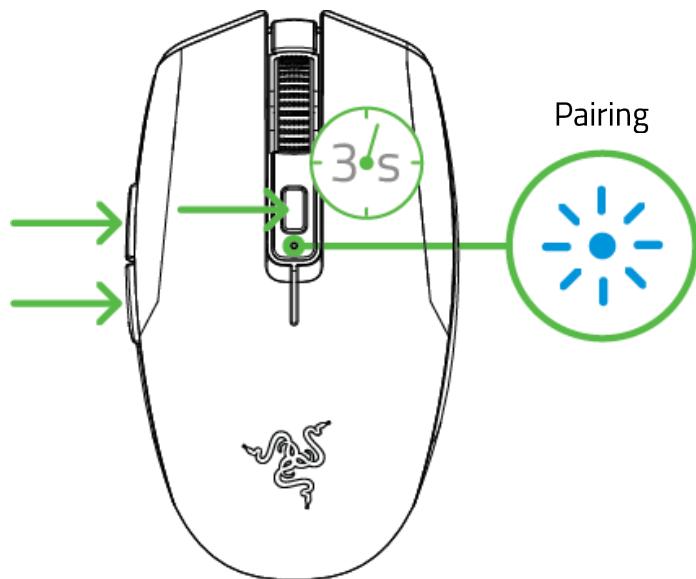

Your Razer Wireless Mouse is now ready for use in wireless mode.

B. VIA BLUETOOTH MODE

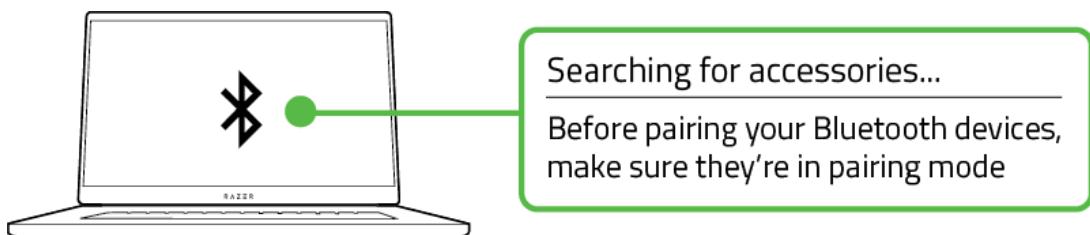

1. Push the slider switch to Bluetooth mode (*).

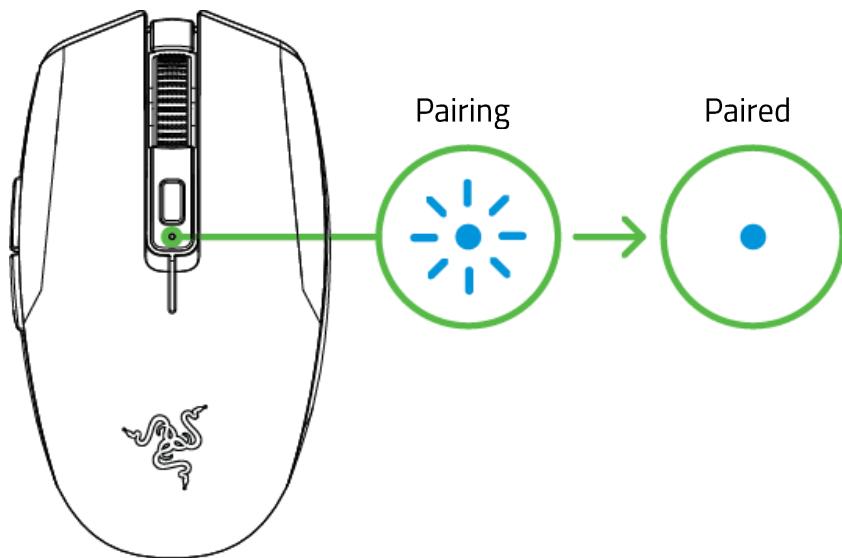

2. Press and hold the two side buttons and the DPI cycle button simultaneously for three seconds to activate pairing mode. The status indicator will blink twice in repeated intervals to show that the device is in pairing mode.

3. Activate Bluetooth on your device and select "Razer Wireless Mouse" from the list of devices found.

4. Wait until the mouse pairs with your device. When paired, the status indicator will briefly turn static blue.

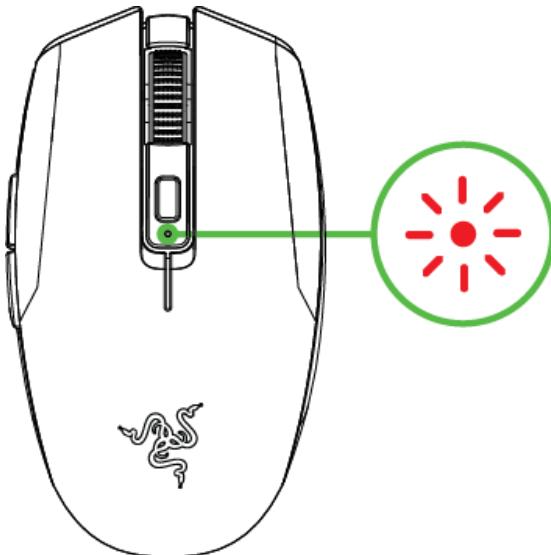

i Once paired, your Razer Wireless Mouse will automatically reconnect to your device whenever in Bluetooth mode and within range. Keep the pairing devices within close proximity of each other for faster and more stable connection.

Congratulations, your Razer Wireless Mouse is now ready to use in Bluetooth mode.

LOW BATTERY NOTIFICATION

The status indicator will blink red twice in repeated intervals to indicate that the battery level of the inserted battery is less than 5%*. This lighting sequence will repeat until the battery is fully drained. Once you receive this notification, it's time to replace the battery.

- i*** The indicator percentage can be customized through Razer Synapse.

PERSONALIZING YOUR MOUSE WITH RAZER SYNAPSE

Change your mouse's DPI to match your playstyle with a press of the DPI cycle button or fine-tune your own sensitivity setting using the Razer Synapse app.

- !*** Install Razer Synapse when prompted or download the installer from razer.com/synapse

SAFETY AND MAINTENANCE

SAFETY GUIDELINES

In order to achieve maximum safety while using your Razer Wireless Mouse, we suggest that you adopt the following guidelines:

Should you have trouble operating the device properly and troubleshooting does not work, unplug the device and contact the Razer hotline or go to support.razer.com for support.

Do not take apart the device (doing so will void your warranty) and do not attempt to operate it under abnormal current loads.

Keep the device away from liquid, humidity or moisture. Operate the device only within the specific temperature range of 0°C (32°F) to 40°C (104°F). Should the temperature exceed this range, unplug and/or switch off the device in order to let the temperature stabilize to an optimal level.

COMFORT

Research has shown that long periods of repetitive motion, improper positioning of your computer peripherals, incorrect body position, and poor habits may be associated with physical discomfort and injury to nerves, tendons, and muscles. Below are some guidelines to avoid injury and ensure optimum comfort while using your Razer Wireless Mouse.

- Position your keyboard and monitor directly in front of you with your mouse next to it. Place your elbows next to your side, not too far away and your keyboard within easy reach.
- Adjust the height of your chair and table so that the keyboard and mouse are at or below elbow-height.
- Keep your feet well supported, posture straight and your shoulders relaxed.
- During gameplay, relax your wrist and keep it straight. If you do the same tasks with your hands repeatedly, try not to bend, extend or twist your hands for long periods.
- Do not rest your wrists on hard surfaces for long periods. Use a wrist rest to support your wrist while gaming.
- Customize the keys on your keyboard to suit your style of gaming in order to minimize repetitive or awkward motions while gaming.
- Do not sit in the same position all day. Get up, step away from your desk and do exercises to stretch your arms, shoulders, neck and legs.

If you should experience any physical discomfort while using your mouse, such as pain, numbness, or tingling in your hands, wrists, elbows, shoulders, neck or back, please consult a qualified medical doctor immediately.

MAINTENANCE AND USE

The Razer Wireless Mouse requires minimum maintenance to keep it in optimum condition. Once a month we recommend you unplug the device from the computer and clean it using a soft cloth or cotton swab to prevent dirt buildup. Do not use soap or harsh cleaning agents.

To get the ultimate experience in movement and control, we highly recommend a premium mouse mat from Razer. Some surfaces will cause undue wear on the feet requiring constant care and eventual replacement.

Do note that the sensor of the Razer Wireless Mouse is 'tuned' or optimized especially for the Razer mouse mats. This means that the sensor has been tested extensively to confirm that the Razer Wireless Mouse reads and tracks best on Razer mouse mats.

STATEMENT OF COMPLIANCE WITH EU DIRECTIVE

Razer (Europe) GmbH, declares that this Razer Orochi V2 Wireless Mouse (Wireless mouse: RZ01-0373, USB Dongle: DGRFG7) is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU & 2015/863/EU.

The full Declaration of Conformity can be requested via the following :

Company: Razer (Europe) GmbH

Address: Alter Teichweg 25, 22081 Hamburg, Germany

E-mail: compliance@razer.com

Internet address: Razer.com

Wireless Mouse

Radio Frequency: 2.4GHz SRD

Operating Frequency: 2402-2480 MHz

Max Output power: 5.67dBm

Radio Frequency: Bluetooth LE

Operating Frequency: 2402-2480MHz

Max Output power: 5.76dBm

USB Dongle

Radio Frequency: 2.4GHz SRD

Operating Frequency: 2402-2480 MHz

Max Output power: 7.12dBm

FCC COMPLIANCE STATEMENTS

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio TV technician for help. For more information, refer to the online help system on razer.com.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. This device has also been tested against this SAR limit.

ISED COMPLIANCE STATEMENTS / DÉCLARATIONS DE CONFORMITÉ ISED

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) L'appareil ne doit pas produire de brouillage; (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 0cm entre le radiateur et votre corps.

BATTERY INFO / INFORMATION SUR LA BATTERIE

Risk of fire or explosion or defeat the safeguard of equipment if the battery is replaced by an incorrect type. Replace only with the same or equivalent type. Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion. High or low extreme temperatures or low air pressure at high altitude that the battery can be subjected to during use, storage or transportation. Leaving the battery in an extremely high temperature and/or low air pressure surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.

Risque d'incendie, d'explosion ou de défaillance de la protection de l'équipement si la batterie est remplacée par un type incorrect. Remplacez-la uniquement par un type identique ou équivalent. Jeter la batterie au feu ou dans un four chaud, ou écraser ou couper mécaniquement la batterie peut entraîner une explosion. Températures extrêmes hautes ou basses ou basse pression d'air à haute altitude auxquelles la batterie peut être soumise pendant l'utilisation, le stockage ou le transport. Laisser la batterie dans un environnement à température extrêmement élevée et/ou à basse pression d'air qui peut entraîner une explosion ou une fuite de liquide ou de gaz inflammable.
