

UNII Device Declaration Letter

Date: Jan. 05, 2024

To whom it may concern:

We have declared below featured for FCC equipment authorization,
FCC ID: **RWO-RZ090510** :

- 1) BE200NGW will not directly connect to another client device.

- 2) BE200NGW will only associate and connect with an indoor Access Point (AP) or indoor Subordinate.

- 3) BE200NGW will always be under the control of an indoor AP. However, there may exist situations where the client may transmit brief messages, prior to being under the control of an AP, to join an AP network. But these brief messages will only occur if the client has detected a signal confirming that an AP is operating on a particular channel. These brief messages will have a time-out mechanism if the client does not receive a response from an AP.

A handwritten signature in blue ink, appearing to read 'Johnsen Tia'.

Johnsen Tia
Title: Associate VP, Regulatory & Compliance
Company name: Razer Inc.
