

Federal Communications Commission Authorization and Evaluation Division  
1435 Oakland Mills Road Columbia,  
MD 21046

Date: 30-Aug-22

## **Declaration**

We, Razer Inc., attest that this device under **FCC ID: RWO-RZ450460** complies with device protocol requirements and operational restrictions: for indoor client 6XD in U-NII -5/6/7/8 bands(5.925-7.125GHz) and NII in U-NII-4 Band (5.850-5.895 GHz).

- a. The device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.
- b. This device will always initiate transmission under the control of a low-power indoor AP or subordinate except for brief transmissions before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
