Timco Engineering, Inc.
Telecommunication Certification Body
849 NW State Road 45
Newberry, FL 32669

**SUBJECT: Check-It Solutions Inc.
FCC ID: RXKCG300
New Certification
FCC Part 15.249**

On behalf of Check-It Solutions Inc. is an application for Certification of the CG300 Z-Wave and ZigBee Advanced Gateway. The device contains two transmitters, Z-Wave (900MHz) and ZigBee (2.4GHz). The device with Z-Wave transmitter has been evaluated for this certification application and complies with the requirements under FCC Rule Part 15.249. In addition the device contains pre-approved ZigBee module, Digi International Inc. p/n: XBee ZB SMT, which is already modularly approved under FCC ID: MCQ-XBS2C.

Submitted within this application is the TCB Form 731, applicant's agency authorization letter, applicant's long-term confidentiality request, FCC Part 15.249 RF measurement report and test setup photographs, device label and location, internal and external device photographs, block diagram (confidential), schematic diagrams (confidential), operational description (confidential), parts list (confidential) and the user manual. In addition a cover letter regarding the ZigBee module has been submitted.

If you have any questions or comments concerning the above, please contact the undersigned.

Sincerely,

Mike Meaker
