To whom it may concern:

This letter serves as an official request for confidentiality under FCC Rule Section 0.459. We have requested that the schematic diagrams, operational diagrams, block diagrams, parts list and PCB layouts required to be submitted with this application be withheld from public review. This unit is part of a patent pending security system for car and all documents are company proprietary information that could never get into the possession of our competition. The company is also in a process to become public with external investors.

Please contact me if there is any information you may need.

Sincerely,
