Shenzhen Anycon Electronics Technology Co., Ltd

USER MANUAL

Button quantity: 13

From: Shenzhen Anycon Electronics Technology Co., Ltd

1.　Basic Requirements:

1.1　Module: BCM20730 Voltage: DC 3V

1.2　Automatic connection, no pairing password/ Default password: 0000

1.3　Current: <25mA

1.4　Standby Current: <20uA (The state is connected with equipment, wake up without matches

1.5　Work distance: Indoors: 10m, Ourdoors: 10m

1.6　With the CE/FCC certificate, approved by the international Bluetooth.

2.　Increase the S18 function instruction

2.1 Pairing: Before pairing with device, connect the power and the LED will flash for 3 times, it shows the power　works well.Keep on pressing the S18 button for 3 seconds,　the LED light on constantly, remote control come to pairing state. Device will send out the pairing insturction and pairing without password(or 0000)automatically. LED light flashing for 3 times,pairing succeed. Whenever you press the S18 for 3 seconds, remote control will come to pairing state.
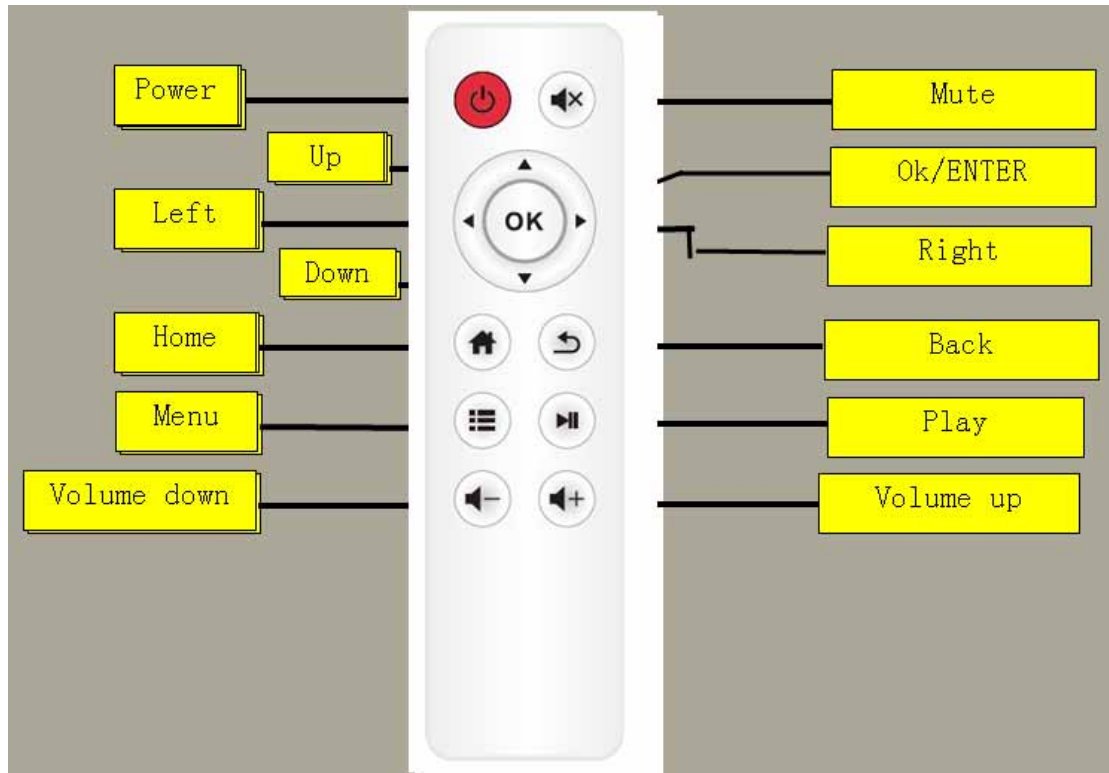

2.2 ON/OFF function:　In the normal state when you use the remote control, once you press the S18 button, remote control will turn off, the current is less than 1uA Press the button once again, the remote control come to work state, meanwhile, LED light flashing for 3 times, remote control works well.

3. The remote control name shows on the device: Bluetooth RCU

4.　Instruction

4.1 The LED light flash for 2 times when you press the button on the remote control

4.2 Low Power instruction: LED light will keep flashing, Frequency: one time for one second

4.3 Sleep/Standby state: LED light stop flashing.

4.4 When you in the normal working state, if you do not press any button within 10 minutes, it will come to sleep mode. Return to work state once you press one button on the remote control.

4.5 Shut off the device power, it will come to low voltage state when you can not find the succeed paired device after 5 minutes, and the quiescent current is: 1uA.

4.6 When you reset the succeed paired device, the LED light will flash and connect the device automatically once youfind the remote control.

5. Products Silkscreen Figure

FCC Certification Requirements

Caution: Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.
