

FCC ID: RZH750320401T4

Circuit Description

The 49.86MHz crystal oscillator drives the base of Q52 the final/buffer amplifier. The modulation provided by IC. The output of Q52 has the matching network consisting of L53 and C58 that limit the harmonic content and effect the proper coupling of the antenna to the output stage.

Antenna, Ground and Power Source

The antenna consists of a 28.5cm long metal antenna. There is no external ground connection. The ground is only that of the printed circuit board. Electric current is supplied by a 9 Volt ("6F22" size battery x 1) primary battery
