

Pro RECHARGE

OWNER'S
MANUAL

Congratulations...

on purchasing the Crest SpinBrush Pro Recharge – its dual moving head and ergonomic design have been developed with Crest Dental Professionals to:

- Deliver effective cleaning
- Whiten stained teeth*
- Fight gingivitis, an early form of gum disease*

With proper brushing, SpinBrush Pro Recharge is designed to help you keep your smile healthy-looking and beautiful for life.

*With regular brushing

IMPORTANT SAFEGUARDS

Crest SpinBrush Pro Recharge has been evaluated by Underwriters Laboratories (UL) and conforms to UL standards for electrical products.

When using electrical products, especially when children are present, basic safety precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING

DANGER:

To reduce the risk of electrocution:

- Do not store the charging unit in a position where it can fall into a tub or sink.
- Do not place or drop charging unit into water or other liquid.
- Do not touch charging unit that has fallen into water. Unplug unit immediately.
- Do not use while bathing or showering.

WARNING:

To reduce the risk of damage to unit, burns, electrocution, fire, or injury to persons:

- Close supervision is necessary when this product is used around, on, or by children under 12 or invalids.
- Use this product only for its intended use as instructed in this Manual, and do not use attachments not recommended by the manufacturer.
- Do not operate this unit if the cord has been damaged, the plug has been damaged, or if the charger has been dropped into water. Return the product to a service center for examination & repair.
- Keep cord away from heated surfaces.
- Never use while sleeping or drowsy.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.

SAVE THESE INSTRUCTIONS

Information

It is recommended that the handle be stored in the charging unit to maintain full power and maximize battery life.

Battery removal / disposal instructions:

The nickel-metal hydride batteries inside your Crest SpinBrush Pro Recharge will eventually wear down and no longer recharge. They cannot be replaced but can easily be removed for disposal or recycling. When the brush needs to be disposed of, simply remove the battery by following the instructions below.

1. Discharge the battery completely by turning on the brush outside of the recharging base and letting it run until it stops.
2. Hold brush handle in right hand, bristles facing down, grab battery cap with left hand, apply downward force until cap snaps.
3. Remove the battery cap and pull out the batteries from the brush.

4. Dispose of batteries according to local environmental regulations, or at an appropriate recycling collection site.

Caution: Opening the handle will destroy the appliance. Note: You will not be able to place new batteries in the handle.

Customer Service Information

Thank you for purchasing a Crest SpinBrush Pro Recharge brush. If you are in the US or Canada and have any questions, please call: 1-800-561-0752 or visit:

www.spinbrush.com

If you are not fully satisfied with your Crest SpinBrush Pro Recharge, simply call 1-800-266-2209 within 90 days of purchase with the original UPC and receipt.

Getting Started

Charging instructions: Crest SpinBrush Pro Recharge is electrically safe when used as directed, and can be used in the bathroom.

1. Plug Charging unit into an electrical outlet.
2. Place the brush handle in the charging unit.
3. The green charging light **①** will pulse when the brush is charged and remain on the brush is left on the charge stand for up to 16 hours as required for a full charge cycle. The brush can be used any time while it is charging. After a full charge, the brush can be used for up to 20 minutes of brushing time (or 5 days, brushing twice a day for 2 minutes each.)
4. Charge your brush for approximately 16 hours before your first use. Do not use with any other charger.
5. You're ready to brush – just like you normally would with your manual brush.

Using Your Crest SpinBrush Pro Recharge:

- You can use any toothpaste with your Crest SpinBrush Pro Recharge.
- To avoid splattering, place the brush head in your mouth before turning on the brush.

Turning the Brush On and Off

- Turn on the brush by gently pressing the on/off button **④**. When you take the brush out of the base, it may feel warm to the touch.
- You can turn the brush off manually by pressing the on/off button at any time.

- The brush will automatically turn off when placed in the charging base **⑦**.
- **Proper Brushing**

- With your SpinBrush Pro Recharge, you should brush as you normally would with a manual toothbrush.
- For best results, it is recommended that you thoroughly brush all the surfaces of your teeth as well as your gums and do not press too hard as you brush.

Brushing Time

- Your SpinBrush Pro Recharge is equipped with a brushing timer to help you brush for a recommended 2 minutes.
- The brush will pulse momentarily when 2 minutes of brushing is complete.

Your Replaceable Dual Action Brush Head

- Your SpinBrush Pro Recharge features a dual moving head designed to deliver great cleaning and care.
- It features colored bands that allow you to customize your brush head. This is useful for those who share a rechargeable brush. Additional colors available with refill head purchase.
- Change your brush head every 3-4 months due to normal wear.

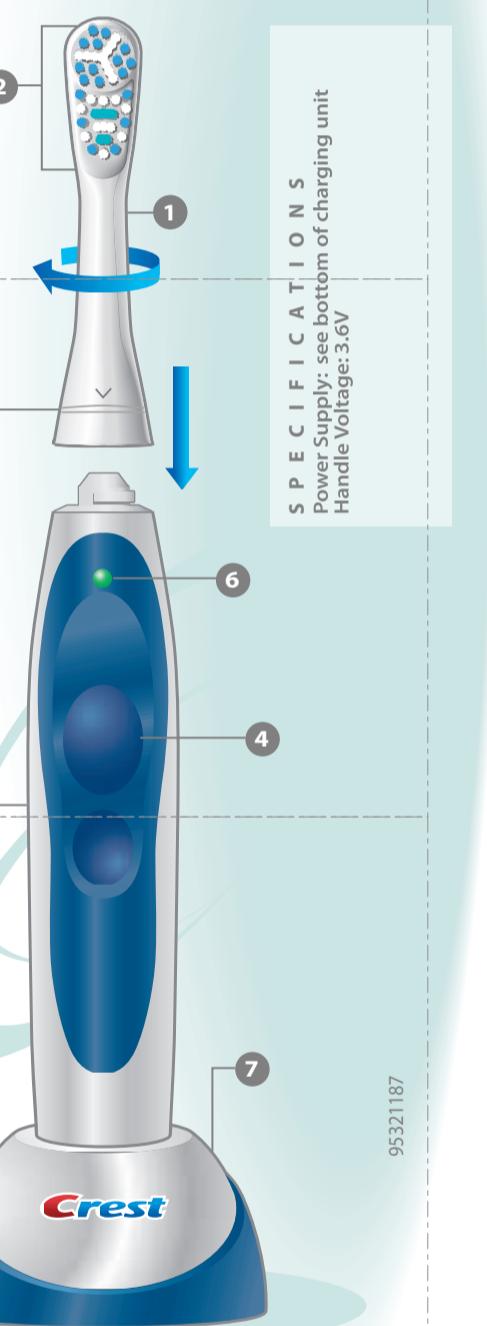

- For optimum performance, replace your brush head with the Crest SpinBrush Pro dual action head specially designed for your Pro Recharge Brush. These are available at retail stores.

CLEANING AND MAINTENANCE

- After brushing, turn on the brush and rinse the brush head for several seconds under running water.
- Periodically, clean the brush handle and charging base with a damp cloth.
- To extend the life of your brush head, periodically remove the head and rinse it out by running water through the neck of the brush head.
- Do not submerge the toothbrush handle or the charger into water for cleaning.
- Store the product in dry cool place when it is not in use.
- Do not wrap the cord around the charger unit.
