

FCC ID: SI4-MBDC4201

Description of Operation

EUT is a [Bluetooth USB Adapter](#) with 79 channels. This device provided 721kbps of transmitting speed. The device of RF carrier is GFSK. The device adapts frequency hopping spread spectrum modulation. The antenna is [print on board](#) Antenna.

This [Bluetooth USB Adapter](#) is an Bluetooth 2.0 adapter. It allows your computer to connect to a bluetooth enabled products and exercise related application, such as files transfer or printing without being bound to the wires. Operation in 2.4GHz Frequency Hopping Spread Spectrum (FHSS) and GFSK radio transmission, the [Bluetooth USB Adapter](#) transfers data at speeds up to 3M bps with 128-bit encryption.
