Ref Permissive Change for BluHome  
FCC ID: S5EBH0107A  
Original Grant Date: 02/21/2007

To whom it may concern

This is to request a permissive change for FCC ID: S5EBH0107A originally granted on 02/21/2007.

The change incorporates the following;

The original design of BluHome used an internal 915MHz antenna. This has been replaced by an external antenna. The original design allowed either option so no changes were required to the product. This change incorporates the use of an external 915MHz antenna JQV-0020-L-XX-915

Part 15.203 rules are met in that the antenna is connected internally within the unit and is non-removable. The antenna is passed through a rubber collet and tied on the other side to prevent pulling. The equipment housing has a tamper switch which sets off an alarm if the unit is opened, so it cannot be opened and parts removed without detection.

Yours sincerely
