## Modular Approval Letter

Date: 2014-12-26

The Device, FCC ID:S5FSDWFCU-33HR is seeking FCC authorization as a modular transmitter. The EUT meets the requirement for modular approval as detailed in FCC Public Notice DA 00-1407. Compliance to each of the requirements is described below:

- 1) The module has its own RF shielding, please refer to the external photographs.
- 2) The modular transmitter have buffered modulation/data inputs, the chip QCA4004X is a highly integrated chip with buffer.
- 3) The modular transmitter have its own power supply regulator, DC 5V input should be converted to 3.3V by the power regulator Circuit.
- 4) The modular transmitter comply with the antenna requirement of section 15.203 and 15.204(c), the model S5FSDWFCU-33HR have two antennas on the PCB.
- 5) The modular transmitter be tested in a stand-alone configuration, the modular be supplied by DC5V from 4 pin transferred to USB port, and the USB cable longer than 10cm from test the laptop at testing.
- 6) The modular transmitter have a label on the modular's shielding, labeled with its own FCC ID number: S5FSDWFCU-33HR
- 7) The modular transmitter comply with any specific rule or operating requirements and the provide adequate instruction along with the module to explain any such requirements. Refer to user manuel.
- 8) The modular transmitter comply with RF exposure requirements. Refer to user manuel.

Sincerely,
