

Antenna Part Number; 10096416

The Antenna is built as 2 layers FR4 PCB.

1. active antenna surface
2. Feeding point
3. background ground surface
4. Connecting point for cable

HF Characteristics:

Frequency range: 2,4GHz - 2,48GHz

Characteristic impedance: 50 OHM

Insertion Loss: 10dB

Standing Wave Ratio: less than 2,0

Gain: 2,2dBi

Radiation pattern
