

Introduction

This Wireless headset is based on Bluetooth technology, connects to a compatible phone without wires. It is easily connecting your mobile phone communication to the headset. This Headset integrated CSR B202 technology, providing fast and reliable voice transmission.

Note:

This Bluetooth headset just supports "call receiving" function, if Bluetooth phone only has headset profile without handsfree profile, it doesn't support a Bluetooth phone without headset and handsfree profile, such as Nokia 7650.

The following page of this user manual focus on how to use this product.

Overview

Important Information

Trouble Shooting

1. No indication of charging is shown.

If the headset battery that is empty or has not been used for a long time it may take a couple minutes for the Headset indicator to show charging status with a steady red light.

2. If you cannot connect the headset to your phone.

- Make sure that the headset is switched on and paired with your phone.
- Make sure that the Bluetooth feature is activated on your phone.
- Check that the headset is within a maximum of 10 meters of your phone and that there are no obstructions, such as walls, or other electronic devices between the headset and the phone.
- The pairing information list of the headset may be full. The headset can store the information of up to 8 phones at a time. If the list becomes full, reset the headset to the original settings.
- If the headset does not respond to your actions, remove the battery for a short while.

Product care and maintenance

- Keep the headset dry. Precipitation, humidity and all types of liquids or moisture can contain minerals that will corrode electronic circuits.
- Do not use or store the headset in dusty, dirty areas. It moving parts can be damaged.
- Do not store the headset in hot areas. High temperatures can shorten the life of electronic devices, damage batteries, and warp or melt certain plastics.
- Do not store the headset in cold areas. When it warms up, moisture can form inside, which may damage electronic circuit boards.
- Do not attempt to open the headset. Non-expert handling may damage it.
- Do not drop, knock or strike the headset. Rough handling can break internal circuit boards.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the headset. Harsh chemicals can damage the plastic.
- Do not paint the headset. Paint can clog the moving parts and prevent proper operation.

Getting started

Changing the battery

The headset has a rechargeable Lithium Polymer battery. You have following way to charge the battery:

- a. Connect the charger cable to the charger connector on Headset.

- b. Connect the charger to an AC wall outlet. The red LED is on, during charge mode. It takes around 2 hours to fully charge the battery. The red LED is off when the battery is full.
