The equipment on the table includes a spectrum analyzer (top) and a power supply unit (bottom). The spectrum analyzer's screen displays the following data:

Parameter	Value
FREQUENCY	80.0000 MHz
dBm	122.0
dB	100.0
dBm	100.0

On the right table, there is a power source (a black plug in a yellow block) connected to a tablet. The tablet screen displays a battery icon with a lightning bolt, indicating it is being charged.
