

1.6 User Manual

<p>Features</p> <ul style="list-style-type: none"> • Green laser pointer • Page up / page down • Wireless keyboard (Play/Esc) & (Screen blank) • USB 2.0 connection, plug & play. No software download loads & driver installation required • Rechargeable lithium battery (USB plug included) • Dual color LED as function indicator • Power- save on/off switch • Nano USB receiver • RF operation distance up to 30 meters (open space) <p>WARNING: Laser radiation is harmful to the eyes. Do not point laser beam at anyone's eyes.</p> <p>CAUTION: Use of controls or adjustments, or performance of procedures other than those specified herein may result in hazardous radiation exposure.</p> <p>  </p> <p>http://www.infiniter.com</p>	<p>Powering LR-20GR Powering LR-20R Powering LR-20</p> <p>Slide up the switch to power on model Slide down the switch to power off model When switch slides down, the laser power is off too.</p> 	<p>FCC Statement</p> <p>This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>NOTE: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: — Reorient or relocate the receiving antenna. — Increase the separation between the equipment. — Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. — Consult the dealer or an experienced radio/TV technician for help.</p>
