# Powering LR-20GR Powering LR-20R Powering LR-20

Slide up the swtich to power on model Slide down the swtich to power off model When switch slides down, the laser power is off too.

# FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tesed and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occurin a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the eqgipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

— Increase the separation between the equipment.

- Increase the separation between the equipment
  Connect the equipment into a outlet on a circuit
  different from that to which the receiver is connected.
  Consult the dealer or an experienced radio TV
  technician for help

### Installing the Wireless USB Receiver

The wireless USB receiver is used like a regular USB flash drive. Plug the receiver directly into an available USB port of your notebook or computer. the drive is automatically recognized and installed.

#### Note:

please always pay attention on the direction of the USB when plug into the USB drive

now you can start to operate the presenter.

## Specifications

 RF transmission / Range : 2.4G / 30 meter (in open space)

led in red color when charging

led in green color when battery

the battery

charging done

- USB interface : USB 2.0
- OS supported: Windows 7,XP, 2000,98
   OS Mac 9.0 or later
- Green Wavelength :532nm
- Red Wavelength :630~680nm
- · Power : Lithium battery
- Battery cycle life time : 500 times
- Battery burn time : > 2.5 hours
- Output power : CLIIIa < 5mW , CLII < 1mW
- Dimensions : 12.8(L) x 3.45 (W) x 2.7(H)cm
- Weight : 60g
- Available color : Black

### measures:

- -Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- + Consult the dealer or an experienced radio/TV technician for help.
   You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.
