

Inside view – Main body

The image shows the internal components of a Firstech Co., Ltd. electronic device. The main component is a green printed circuit board (PCB) with various electronic components, including resistors, capacitors, and integrated circuits. A white label on the PCB provides the following information:

Model	F-D-2100
Ver.	2.01
製造会社	Firstech Co., Ltd.

The PCB is mounted within a metal housing. A white battery is visible on the left side, connected to the PCB. A black cable is also connected to the PCB. The device is shown from the inside, revealing the internal wiring and components.
