

BH-23 Operation Guide

Version: v1

- You can adjust the retractable string to make the wearing comfortable.

Battery charge

- Before using, please fully charge the battery by the USB cable.
- When the battery power is weak, the red LED will flash and there are 'dee..dee..' sound to remind.
- The red LED will light on in charging.
- When the battery is fully charged, the red LED will turn off.

Power on/off

Long press MFB button for about 3 seconds to power on or power off the unit.

Pairing

Power on the unit, then press MFB button again, the blue and red LED will flash alternately. Then the unit is in pairing mode. Enter the pairing mode of the other Bluetooth device and find 'BH-23' to pair. The pairing can be done automatically or by inputting '0000' to pair. After pairing, only the blue LED will flash. Then unit enters the standby mode.

Music Playing

- Play the music from the paired device.
- Press MBF button to pause or continue the play.

- Press the '<' or '>' button to go the last or next song.
- Press '-' or '+' button to adjust the volume.

Hands-free for calling

- Short press MBF button to pick up or stop a call.
- Long press MBF button for about 2 seconds to reject a call.
- Short press M button 2 times to redial the last call.

Note: After you make or pick up, then stop a call, the unit will play music automatically though the unit is not in playing mode before. If you don't want to enjoy the music, please stop playing.

Weight	110g

Accessories:

- USB cable
- Instruction Manual

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
