Re: FCC ID: S85-DAS900

To Whom It May Concern:

The following application is submitted on behalf of our client, Channel D Solutions, Inc., for evaluation of their model DAS-900 for certification under FCC Part 15.247.

The DAS-900 is an Antenna Distribution system that provides wireless communications through the use of a frequency-hopping spread-spectrum RF module and a 900 MHz wireless intercom system, which transmits a digitally encoded signal used to expand communications coverage into areas that cannot be covered by a single antenna.

The DAS-900 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
