

Edwards

Justification for RF exposure compliance

April 17, 2006

Authorization & Evaluation Division
Federal Communications Commission Laboratory
7435 Oakland Mills Road
Columbia, MS 21046

FCC ID: S8IWPMS

To whom it may concern:

This device can be considered as Portable. In accordance with FCC section 2.1093 and 1.1307 (b)(2), when portable device is operating under WMTS part 95H technical requirements, Routine RF evaluation is required to demonstrate RF Exposure compliance.

Limit for general population:

User distance < 2.5 cm: $P < 60/f$ (mW) – no SAR evaluation required to certify.

Device RF output power is 0.316 mW.

$0.316 < 60/1.4 = 42.8$ mW

RF output power is less than specified limit. Therefore no SAR evaluation is required, and device considered in compliance with RF Exposure requirements.

Sincerely,

Hal Heitzmann, PhD.
