

NORTHWEST EMC, INC.
22975 NW Evergreen Parkway, Suite 400
Hillsboro, OR 97124

June 15, 2005

Dear Application Examiner:

On behalf of WirelessWERX, Inc., Northwest EMC, Inc. is submitting this application for the certification of WirelessWERX's TrakLITE C4-B, FCC ID: S8PTL-C4-B. It is a mobile, composite device containing a GSM/GPRS modem, Bluetooth transceiver, and a GPS receiver.

It is intended for vehicular use and is powered by a 12 volt to 24 volt battery. There are no provisions for connection to the AC mains either directly, or indirectly from another device.

The Bluetooth radio utilizes a single antenna with a reverse polarity SMA connector. This configuration satisfies the requirements of 47 CFR 15.203.

The 800 MHz GSM receiver portion of this radio transceiver has been verified to FCC 15B.

The technical reports and exhibits demonstrate compliance with FCC rules 47 CFR 15.247, FCC 22H, and FCC 24E.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Northwest EMC, Inc.
