Company name: Ruckus Wireless
FCC Part 15 Certification; Limited Single Modular Transmitter, FCC ID: S9G-MPE5N33A

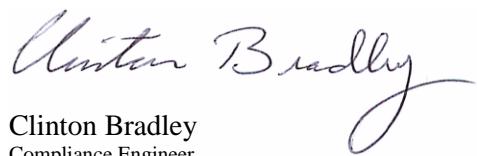

Gentlemen,

In accordance with DA 00-1407 – 26th Jun 2000 “Part 15 Unlicensed Modular Transmitter Approval” and KDB “996369 D01 Module Certification Guide v01r03”, Ruckus Wireless Inc. declares it has met the follow requirements set out in the document for the granting of a limited single modular transmitter approval.

Notes	Modular requirements
Complies	The modular transmitter must have its own RF shielding.
Complies	The modular transmitter must have buffered modulation/data inputs.
Power supply regulation provided by host board.	The modular transmitter must have its own power supply regulation.
Complies	The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c). The antenna must either be permanently attached or employ a “unique” antenna coupler (at all connections between the module and the antenna, including the cable).
Complies	The modular transmitter must be tested in a stand-alone configuration,
Complies	The modular transmitter must be labeled with its own FCC ID number.
Complies	The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.
Complies	The modular transmitter must comply with any applicable RF exposure requirements.

Device will be restricted to host devices manufactured by Ruckus Wireless, Inc. Ruckus Wireless does not intend to sell the modules. They will only be used for installation in Ruckus products. Therefore, no description of the module's use is included in the user's manual. The manual only describes the complete product incorporating the module.”

Sincerely,

Clinton Bradley
