Re: FCC ID: SAK40020000

To Whom It May Concern:

The following Class 2 Permissive Change application is submitted on behalf of our client, Walter Kidde Portable Equipment Inc., for evaluation of their model 40020000 for certification under FCC Part 15.247.

The 40020000 is a stand-alone module consisting of a single printed circuit board which is designed to be integrated into specific host devices. The Class 2 Permissive Change request is to add new antenna configuration while the module is integrated within the SBR101 host device.

The 40020000 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Sam Wismer". The signature is fluid and cursive, with the first letter of the first name being a large, stylized capital "R".
