

June 6, 2016

Federal Communications Commission  
Washington, DC 20554.

**Dear Sir or Madam:**

Pursuant to CFR§ 2.1043, Nordic ID Oy hereby requests a class II Permissive change for it's module NUR-05WL2 with FCC ID SCCNUR05WL2.

"This device is granted by FCC for use in Mobile only configurations in which the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and not be co located with any other transmitters except in accordance with FCC multi transmitter product procedures."

Nordic ID would like to integrate this module into portable host device designed by Nordic ID.

Device is wireless data collection computer.

Also Nordic ID would like to integrate into this same host device another FCC certified module: SDC-SSD40NBT WLAN+Bluetooth module with FCC ID TWG-SDC SSD40NBT.

"This grant is valid only when the module is sold to OEM integrators and must be installed by the OEM or OEM integrators. This device is granted for use in Mobile only configurations in which the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and not be co located with any other transmitters except in accordance with FCC multi transmitter product procedures."

Due to the fact that we would like to have these modules mentioned in above in a same host device and use device closer than 20cm from human body, we have arranged EMC radiated spurious tests as well as SAR tests to be sure that our host device fulfills FCC regulations.

Sincerely,

Hannu Heino

Technical Director

Nordic ID Oy
