

Attention:
Application Examiner
Reviewing Engineer

21 December, 2004

FCC ID: SCEAR4240

To Whom It May Concern:

The fiber optic node (FON) described in the manual is an auxiliary equipment that can be added to the repeater. Hence it is not a part of the application for equipment certification for the referenced FCC identifiers. The fact that the FON won't be approved by FCC to use with this product will be clarified in the manual.

We do not wish to include the FON in the application and are fully aware of the loss of functionality this brings.

Regards,
Niklas Boström

A handwritten signature in black ink, appearing to read "Niklas Boström", with a long, sweeping horizontal stroke at the end.
