Re: FCC ID: SDB510Q

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model 510Q for certification under FCC Part 90 Subpart I.

The purpose of this application is to modular approve the model 510Q (FCC ID: SDB510Q) wireless transceiver. The FCC ID: SDB510Q is a stand-alone radio module that is designed to be integrated into specific host devices. The model 510Q was evaluated in accordance to WT Docket No. 11-56, DA 11-1316 which waives 90.203(j) from the test requirements.

The FCC ID: SDB510Q was tested standalone and the radiated emissions evaluation was performed in the orientation of typical installation. The FCC ID: SDB510Q was found to be in compliance with the test requirements.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
