Re: FCC ID: SDBDAHAN01

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model DAHAN01 for certification under FCC Part 24 Subpart D and Part 101 Subpart C.

The purpose of this application is to modular approve the DAHAN01 transceiver. The DAHAN01 is a stand-alone module consisting of a single printed circuit board which is designed to be integrated into specific host devices.

The FCC ID: SDBDAHAN01 was tested while connected to an evaluation board and the radiated measurements were performed in 3 orthogonal orientations, with the data for the orientation leading to the highest emissions reported in the certification report. The DAHAN01 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,
