Re: FCC ID: SDBFMT450

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model FMT450 for a class 2 permissive change under FCC Part 90 Subpart I.

The purpose of this application is to increase the frequency range of operation of the model FMT450 (FCC ID: SDBFMT450) wireless transceiver. The additional frequency band of 464.6625 MHz to 464.7125 MHz is activated by software. There are no hardware or power changes on the product. The FCC ID: SDBFMT450 was evaluated in accordance to WT Docket No. 11-56, DA 11-1316 which waives 90.203(j) from the test requirements.

The FCC ID: SDBFMT450 was found to be in compliance with the test requirements.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
